

Brainstorming & Idea Prioritization Template

Date	29 September 2026
Team ID	SWTID-2026-7019
Project Name	EduGenie – AI Learning Assistant
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	RAGURAM M (Team Head)	A simple box where a student types any question and gets a clear AI answer	Core Feature	1
2	GUNA M	Answer questions on any subject – science, history, maths, coding	Core Feature	1
3	SUGUMAR S	Explain any concept in simple, school-friendly language	Core Feature	2
4	SATHISH E	Use a small local AI model for explanations, with Gemini as backup if it fails	Technical	2
5	RAGURAM M (Team Head)	Paste a long paragraph and get a short summary in easy words	Core Feature	3
6	GUNA M	Generate 3 multiple-choice questions from a topic or passage	Core Feature	4
7	SUGUMAR S	Show right / wrong feedback instantly after the student picks an option	Learning Support	4
8	SATHISH E	Give a beginner-to-advanced learning path with videos, articles and books	Learning Support	5
9	RAGURAM M (Team Head)	Suggest what to learn next based on the topic the student enters	Learning Support	5
10	GUNA M	One-page website with a separate card for each feature	UI / UX	6
11	SUGUMAR S	Show a loading message and friendly errors when the AI is slow or the API key is missing	UI / UX	6

S.No	Team Member	Idea / Suggestion	Category	Group No.
12	SATHISH E	Use a FastAPI backend with the Google Gemini API for all AI features	Technical	6
13	RAGURAM M (Team Head)	Login and progress tracking (quiz scores, topics studied)	Future Enhancement	7
14	GUNA M	Save past questions, summaries and quizzes for revision	Future Enhancement	7
15	SUGUMAR S	Voice input and spoken answers	Future Enhancement	8
16	SATHISH E	Support regional languages such as Tamil and Hindi	Future Enhancement	8

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High / Medium / Low)	Importance (High / Medium / Low)	Priority	Selected (Yes/No)
1	AI Question & Answer – ask anything and get an instant answer	High	High	High	Yes
2	Simple Concept Explanation for school students	High	High	High	Yes
3	Text Summarizer – long text to short, easy summary	High	Medium	Medium	Yes
4	Quiz Generator – 3 MCQs with instant feedback	Medium	High	High	Yes
5	Personalised Learning Path (beginner to advanced)	High	Medium	Medium	Yes
6	Simple Web App – one-page interface with FastAPI backend	High	High	High	Yes
7	Login, Progress Tracking and History	Low	Medium	Low	No
8	Voice Input and Regional Language Support	Low	Medium	Low	No

Final Selected Idea

Groups 1 to 6 are selected. Together they make EduGenie – a one-page AI tutor where students can ask questions, get simple explanations, summarize text, take a quick quiz and get a learning path. Groups 7

and 8 are kept for future scope because they need extra setup (user accounts, database, speech and language support) and are not needed for the core idea to work.
