Project Name	EduGenie – AI Learning Assistant
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Visit & Ask	Stage 2: Learn & Understand	Stage 3: Practise & Plan
Actions <i>What does the customer do?</i>	- Gets stuck on a hard topic or doubt - Opens the EduGenie website - Looks at the five feature cards	- Types a question or topic - Pastes long notes to summarize - Reads the answer, explanation or summary	- Generates a quiz on the topic - Picks answers and checks the result - Asks for a learning path for the next topic
Touchpoint <i>What part of the service do they interact with?</i>	- EduGenie home page - Feature cards on the page - Ask a Question box	- Q&A, Explain and Summarize cards - Get Answer / Explain / Summarize buttons - Result box on the screen	- Quiz card (3 MCQs) - Learning Path card - Loading and error messages
Customer Thought <i>What is the customer thinking?</i>	"Will this be easy to use?" "Can it explain in simple words?" "I hope it is faster than searching."	"This is easy to follow." "The summary saves my time." "Is this answer correct?"	"Do I really understand this?" "What should I learn next?" "I can use this every day."
Customer Feeling <i>What is the customer feeling?</i>	Curious, but a little unsure	Relieved and more confident	Motivated and in control
Process Ownership <i>Who is in the lead on this?</i>	Frontend team – web page and layout	Backend team – FastAPI and Gemini AI	AI and backend team – quiz and learning path modules
Opportunities <i>How can we improve this stage?</i>	- Add a short "how to use" guide - Show sample questions to try - Keep the page fast to load	- Add examples inside explanations - Support Tamil and Hindi - Add voice input and read-aloud	- Save quiz scores and progress - Allow more than 3 questions - Explain why a wrong answer is wrong
